## Important Information Regarding Implemented Safety Precautions

As always, Themis strives to present cutting-edge topics and real-world issues to better serve the insurance industry. This year, we are presenting what we think is a first-of-its-kind presentation involving six separate phases in the life cycle of a difficult claim. This should be an extremely valuable learning experience and we hope you will join us for this conference.

As we enter the final stages of planning, we want to convey some important information regarding the safety precautions we have put in place for your attendance.

- **ALL ATTENDEES ARE REQUIRED TO HAVE RECEIVED THEIR COVID VACCINATION.**

You will receive a link to a third-party provider to upload your vaccination card for verification in the coming days.

- All hotel service staff servicing our meeting in our private meeting room and outdoor meals location will have been vaccinated but still wearing a mask.

You can request no housekeeping service in your hotel room. (*Housekeeping will wear masks but no vaccination requirement*).

If you opt to use the spa you can request a vaccinated attendant. This may limit the number of spa times available.

- All hotel staff, indoors and outdoors, will be wearing masks regardless of their vaccination status.
- Front desk, bell desk, and concierge desk are all equipped with plexiglass panels at counters.
- Key cards are sanitized prior to distribution to guests.
- We have secured a larger meeting space so tables can be spread out.
- All meals are scheduled to be served outside under an awning.
- **A complete sanitation plan is available by request.**

**We look forward to seeing you in sunny Miami in February!**
